

T.E.A.M Nurses Mentor program

“Exceptional people. Extraordinary care”

Purpose

The mentor program is structured for collaboration, and learning between two individuals. The mentor is the more experienced person and they help guide, counsel and are a role model for the mentee.

Studies show that mentorship programs foster collaboration, networking and sharing of idea.

Program structure

- Mentorship program runs 10 months from January to October
- Applications accepted October 1st to October 20th
- Mandatory meet and greet in November (first Friday)
- Minimum monthly meetings and/or calls
- Completion of monthly logs
- Continuing education credits available

Mentor process

1. Mentor fills out application
2. Agree to meet by phone or in person with mentee monthly
3. Agree to complete monthly mentorship log
4. Must attend initial meet and greet
5. Completes online orientation (will receive continuing education credits)
6. Must attend year end mentorship wrap-up (will receive continuing education credits)
7. Will receive certificate of completion at end of program
